Communication Form

Patient Name Spencer Joseph Barrett Date 11/15/22

⬭ Nursing ⬭ Provider/Doctor ☒ Social Work ⬭ Psychology
☒ Other ________ to prove I am fit and have been fit to stand trial

Concern/Need I do not believe I should be here... I would like: 1) doctor eval 2) court transcripts from 8/8/2022 ? & 10/5/2022 3) new lawyer / someone to complain about current lawyer abuse 4) The evaluation made by Isabelle Dousarkissian dated September 30, 2022 (to understand how I am "unfit")

→ one who actually cares about what I have to say, my past, present & future and wants to improve a corruptible system.

I need someone who will listen and help me re-route / re-direct my habeas corpus from my current lawyer Amy Counter to a real CIVIL RIGHTS Lawyer

I ~~want~~ need doctors & lawyers to see me as a complex yet competent individual interested and capable of assisting a multitude of ~~personal~~ flaws: distorted communications ("chain of command" / Telephone game

Staff Clarification (if above is unclear): mass scale of de-individuation / diffusement of responsibility

Staff Response (if requested in writing):

All these things are legal issues. I cannot give legal advice & respectfully refer you to your attorney. [illegible], SW 11/18/22

Whom I cannot contact! Great!

→ Dawson prayer (at a price) (11/18)

RE: on 11/21/2022

Patient Name Spencer Joseph Barrett Date 11/17/2022

◯ Nursing ◯ Provider/Doctor ⊗ Social Work ◯ Psychology
⊗ Other ______

Concern/Need

personal
- help getting a divorce and securing the safety of my daughter amidst a mother w/ PostPartum Suicidal thoughts and behavior. How to ensure her health and happiness during my absence. (lawyer does not respond... who can I contact)

(a collective issue... many patients (lawyers) ignore us...)

collective
- access to higher education tools and resources such as a larger library (wikipedia can be downloaded onto devices for offline uses and contains a vast amount of knowledge & multiple verifiable sources)
  - simple science experiments & methodologies & more diverse artistic expressions
- more teamwork / Trust-building exercises to feel more apart of a community and less alienated / expendable
  - essential for identity development
- more things to care about - like plants / gardens or rescued animals
- ways to connect w/ the Outside world & ~~past~~ earlier lifes work in order to secure sanity and prepare for eventual release and re-exposure to that world

Staff Clarification (if above is unclear):

* I am motivated and willing to write a letter to the admins / governor or other potential sponsors regarding bullet points #2-5 but still need assistance resolving bullet point #1

Thank you for your consideration

not helpful response — "can only help w/ legal skills" (notecards not real legal skills...) + patronizing

Staff Response (if requested in writing): "don't know what to do about someone who doesn't want to be found... (wife)"...

Thank you Mr. Spencer for outlining your needs. I expect you should consult with an attorney regarding your wife + daughter. Patients who are at the hospital for restoration Evaluation do not have access to the internet. Many of the interventions + coping activities you have listened may be available once your charges are resolved + you return back to the community. You were ordered to the hospital for restoration and you are making steady progress. Your evaluation is currently scheduled for 1/9/23.

Patient Grievance: Grievance Committee Response

Grievance # 22-368

Finding #1: We cannot discuss another patient's treatment due to patient confidentiality (HIPAA). Unit staff are aware of issues like this on the unit and work to provide a safe and therapeutic environment for all patients. If you are feeling frustrated, we encourage you to speak with staff.

Finding #2: The unit quiet room, sensory room, and various TXM activities are available options for you to get away from the noise of the unit. Nursing staff will continue to do their best in encouraging a therapeutic milieu as well.

Finding #3: Administration oversees patient unit transfers. There is no urgent clinical need to move you to another unit. Leaf 2 will continue to problem solve with you on this issue.

Patient Grievance: Grievance Committee Response

Grievance # 22-369

Finding #1: The Statesman's Journal is the only OSH Salem newspaper that LF2 receives. If there is another newspaper that you would like to read, you could ask someone outside of OSH to order a subscription for you. Have them send it to: Spencer J. Barrett Leaf 2 unit 2600 Center St. NE, Salem OR 97301. Remember to cancel your subscription before you discharge.

Finding #2: Nursing staff are not able to print large sets of documents for you. In addition, they cannot log onto any of your online accounts. The rationale for this is that patients sent to OSH under the .370 law do not have internet access (same as when you were in county jail.) Limited computer access is available at the Law Library on Thursdays between 1-2 pm. The Law Library policy states patients can print/copy up to 20 pages each week at no cost.

OSH and OHA Review

Patients must complete the grievance process in order. Refer to the Grievance Process handout, available on all units, for more information.

I am requesting (check one):

☒ **OSH Review:** The OSH Ombuds Office will review your grievance and provide you with a written response.

- Attach a copy of your original grievance and the unit's response, unless a response has not been provided within 7 days of the date received by the hospital.
- Use the space on the back of this form to explain why you were not satisfied with the unit's response to your grievance or a statement explaining that the unit's response was not provided within the required timeframe.
- OSH Reviews must be requested no more than 14 days after you received the unit's response. You may request an exception to this requirement using the space below.

☐ **OHA Review:** The OHA Director will review your grievance and provide a written response. This response is final.

- Attach a copy of your original grievance and the unit's response, unless a response has not been provided within 7 days of the date received.
- Attach a copy of your OSH review request and response, unless a response has not been provided within 14 days of the date received by the hospital, excluding weekends and holidays.

DECISION/ACTION THAT I AM GRIEVING: There is no pencil sharpener in my Dayroom (section East Annex J) and I need to prepare writings to mail out to the Governor and other legal parties but am unable to write and edit my drafts due to the lack of pencil sharpener.

Oregon Constitution: section 41:2: [correctional facilities shall be] "designed to develop inmate motivation, work capabilities and cooperation" 169.076:14: "rights to access legal materials shall be protected." [access includes abilities to] 169.076:10: "Forward w/ out censorship [or deprival of materials required to perform] outgoing communications."

I TRIED TO SOLVE THIS GRIEVANCE BY: asking deputies to replace/reinstall pencil sharpener or to allow me another pencil - which they have "forgotten" along w/ many other requests

THE RESOLUTION I AM SEEKING IS: To re-install the pencil sharpener in this housing section EAX: J and to create a work policy where deputies cultivate hopeful trust with inmates instead of neglect and hatred based distrust that has lifelong consequences for all parties

DECISION/ACTION THAT I AM GRIEVING: Being punched in the face (assaulted) while reading the bible outloud on 9/6/22 @ 1230-1240pm in East Annex North "protective custody". Deputies allow inmates to scream and bang all night, and blast Fake News TV all day but when I use my First Ammendment right to read the Bible outloud I am threatened by 2 inmates, assaulted by 1 and made fun of by the Deputies - who punished me afterwards by moving me into a dirty cell that reaked of urine and has less ammenities than my prior cells. I was not allowed to clean my new cell until one day later even after multiple requests and complaints of the smell and conditions.

I TRIED TO SOLVE THIS GRIEVANCE BY: pressing charges, calling my lawyer, entering "solo status" and filing this grievance. I had requested to be moved to a new cell outside of the disturbing SAX (bad air quality and screaming, no windows etc) and am still in SAX after being told it would be moved.

THE RESOLUTION I AM SEEKING IS: better procedures in place: faster response time and care to observe individuals in "Protective Custody" before things get out of hand.

RESPONSE FROM THE EMPLOYEE BEING GRIEVED: You were moved to a new pod and made 'solo' status on Sept. 6, the day of the incident in IN pod, and the person who assaulted you was issued a Misconduct Report. Deputies do their best to observe AIC behavior and prevent assaults whenever possible.

DECISION/ACTION THAT I AM GRIEVING: ORS 169.076,14: [I shall have] "rights to access legal materials shall be protected" yet it takes multiple days to grant access to the Law Library after a request is made and by the time it is granted, the 50 min allowed is nowhere near acceptable for any manner of discovery. This also goes for access during "Day Room" to read the ORS book in only 50 min. (classes @ school arent even that short)

Access to legal materials should not be such a hassle and I have yet to recieve and envelope to mail the Governor - which is my right as I have no funds and requested it multiple times

I TRIED TO SOLVE THIS GRIEVANCE BY: Filing this grievance

THE RESOLUTION I AM SEEKING IS: Policy change, longer access to Law Library or allow seriously interested inmates access to borrow paper copies for cell use and study, allow those interested their own ORS book or condensed version

RESPONSE FROM THE EMPLOYEE BEING GRIEVED: The Law Library is used by multiple AICs. We currently only have 1 computer, so there are time limits. Congress OKs prison-repair mandate

Michael R. Sisak
ASSOCIATED PRESS

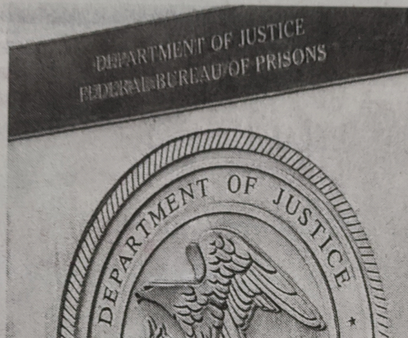

WASHINGTON – Congress has passed legislation requiring the federal Bureau of Prisons to overhaul failing and outdated security systems in the wake of rampant staff sexual abuse, inmate escapes and high-profile deaths.

The bill, approved by the House on a voice vote Wednesday, would force the troubled prison agency to fix broken surveillance cameras and install new ones, providing upgraded tools to fight and investigate staff misconduct, inmate violence and other problems.

The Prison Camera Reform Act, which the Senate passed last year, now goes to President Joe Biden to be signed into law.

"Broken prison camera systems are enabling corruption, misconduct and abuse," said the bill's sponsor, Sen. Jon Ossoff, D-Ga. He has led multiple investigations of crime and corruption in federal prisons as chairman of the Senate Permanent Subcommittee on Investigations, part of the Senate Homeland Security and Governmental Affairs Committee.

The bipartisan legislation would require the Bureau of Prisons to evaluate and enhance security camera, radio and public address systems at its 122 facilities. The agency must submit a report to Congress within three months detailing deficiencies and a plan to make needed upgrades. Those upgrades are required within three years, and the bureau must submit annual progress reports to lawmakers.

Bipartisan legislation now awaiting the president's signature would require the Bureau of Prisons to evaluate and enhance security camera, radio and public address systems at its 122 facilities. MARK LENNIHAN/AP FILE

Failing and inadequate security cameras have allowed inmates to escape from federal prisons and hampered investigations. They were an issue in the deaths of gangster James "Whitey" Bulger at a federal prison in West Virginia in 2018 and financier Jeffrey Epstein at a federal jail in New York City in 2019.

Cameras captured inmates going into Bulger's cell, but not the assault that ended his life – due to limitations on how they can be positioned.

In Epstein's case, some cameras malfunctioned while others revealed that guards failed to make some required half-hourly checks, and footage of his apparent suicide attempt a few weeks earlier was lost "as a result of technical errors," prosecutors said.

The House vote came just a day after Ossoff's subcommittee heard testimony from three formerly incarcerated women who said staff abused them in areas of federal prisons that lacked cameras.

The Justice Department's internal watchdog testified that deficiencies with security cameras in federal prisons have compromised investigations into such ills as sexual assault, the introduction of contraband, violations of civil rights and inmate deaths. The inspector general, Michael Horowitz, noted that cameras are also integral to disproving false allegations.

In introducing the camera bill last year, Ossoff said that blind spots, lost footage and technical failures were unacceptable. He said federal prisons "must be cleaned up and held to the highest standards."

The legislation also had the backing of the leaders of the Senate Judiciary Committee – the chairman, Sen. Dick Durbin, D-Ill., and the top Republican, Iowa Sen. Chuck Grassley.

Describe your grievance: I dont feel safe - sharing a room w/ Nicholas or anyone here for that matter - I need my own room: I had slept in the sensory room or TV room for the past 2 weeks until I became so sleep deprived I went back only to not get any better sleep and wake up to my roommate standing over me he also has a brother who he said is proud of killing someone at the OSH and told me he thinks my eyes are black, changing shape and demonic. I also have a fear that is justified due to my activism and publications that I will be silenced: for instance re: posting and circulating Noam Chomsky's claim: "if the Nuremberg laws were applied then every post war president would be hanged" amongst other anti-war "amateur" whistle blowing

What have you done so far to address your grievance? Asked multiple times for my own room ? felt safer under "security" video surveillance camera

What is your desired outcome? FOR A SINGLE ROOM UNTIL I AM DISCHARGED ON THE 31st

I would like to discuss my grievance with a Grievance Committee member ☐Yes ☐No

"Hypothetical Reasoning" (class @ OSH)

To Jury: what motivates them to prosecute me?

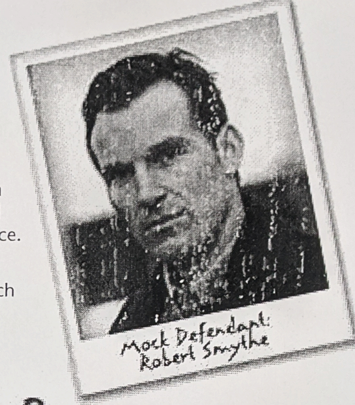

PART 1: THE CASE

Read the paragraphs below concerning a fictional criminal case. Then answer the questions in Part 2. Do not discuss your answers with your fellow jurors.

On October 12, an intruder broke into the town art museum, smashing through an office window sometime between the hours of 2 and 4 A.M. At 4 A.M. the museum security guard noticed that three paintings were missing from the museum. He immediately called the police, who searched the museum and found two other items missing: a pair of replica crowns from 15th-century France. The police found muddy footprints at each crime scene.

On December 14, Robert Smythe attempted to sell a replica 15th-century French crown to a pawnshop. The shop owner contacted the police, who searched Smythe's home and found a second replica crown and a large collection of swords and armor. They also found a pair of shoes that matched the muddy footprints found at the museum. They did not find any of the stolen paintings. Robert Smythe maintains that he is innocent and that he collects European antiques. He states that he bought the crowns on the Internet and later decided to sell them.

Reasonable Doubt

In the United States, a person accused of a crime is innocent until proven guilty. A jury may not find a person guilty if there is reasonable doubt of his or her guilt. If the evidence presented does not reasonably convince the jury of a person's guilt, they must find him or her not guilty.

PART 2: JUROR NOTES

1. What evidence in the case indicates that Smythe is not guilty?
2. What evidence indicates that Smythe is guilty?
3. Based on the evidence, would you find Smythe guilty or not guilty?
4. Is there anything in the case that would change your decision? Why or why not?

PART 3: OFFICIAL JUROR FORM

Work together ~~in groups of 12~~ to decide whether Robert Smythe is guilty. Everyone in the jury must agree before you can offer a final verdict. When you have reached a decision, answer the following questions.

1. Did the jury conclude that Robert Smythe was guilty or not guilty?
2. Was the jury verdict the same as or different from your individual decision?
3. If the jury verdict was different, what made you change your mind about the decision? If it was the same, did anyone with a differing opinion present any evidence that almost convinced you to change your mind?
